

General Educational Number Spinner 1-20

Introduction

A number spinner can be used in place of dice for lots of games.

This is particularly useful if your child has a tendency to put small objects, like dice, into their mouth.

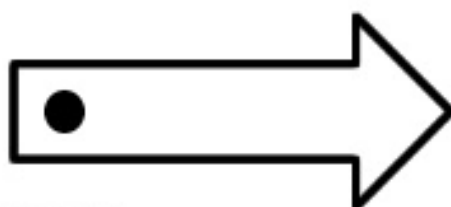

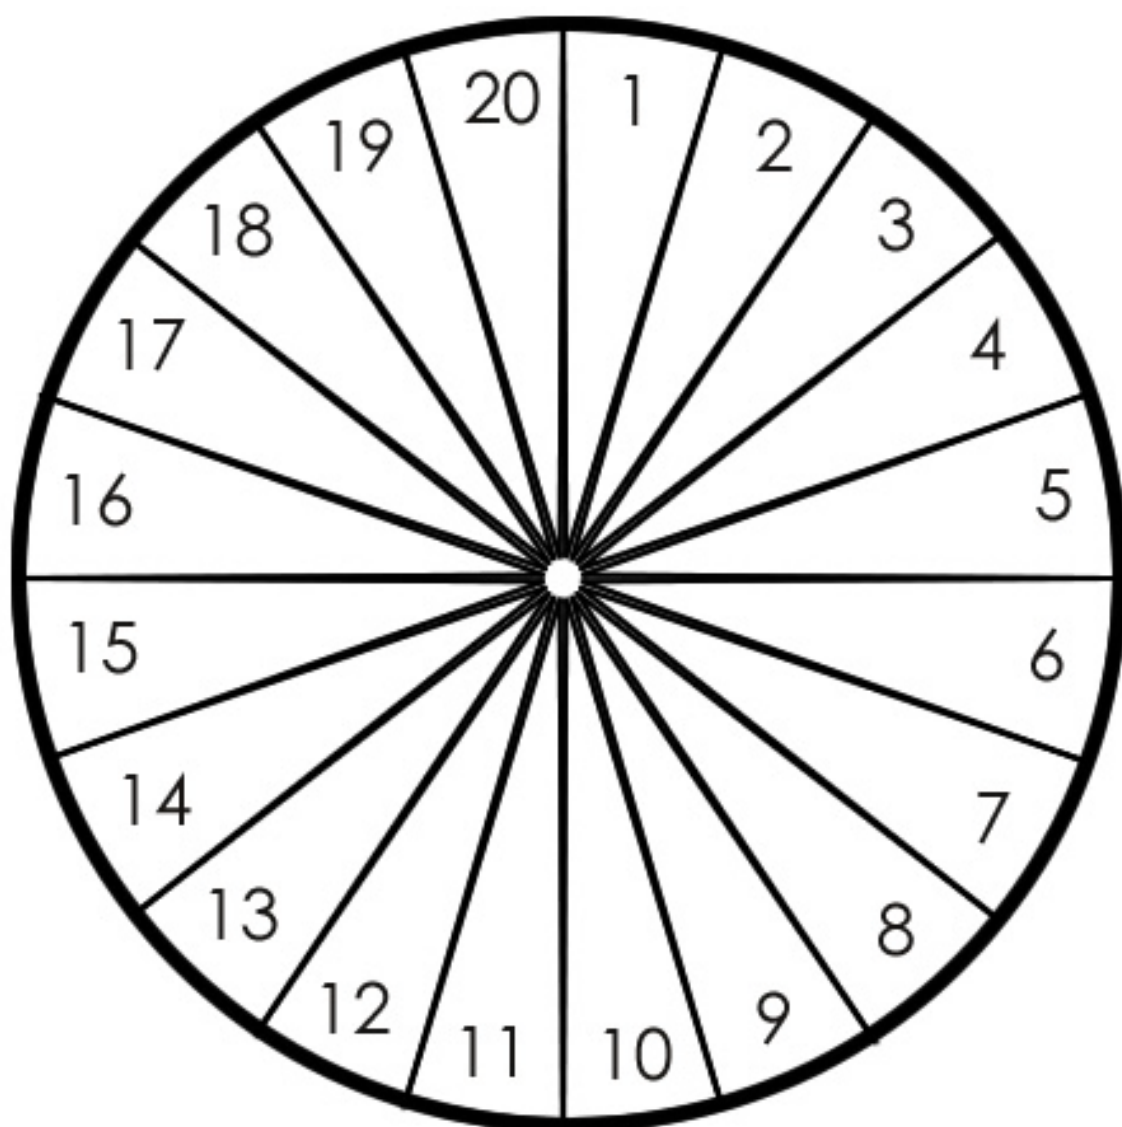

This number spinner is an alternative to a 1- 20 die.

You will need

- Card
- Glue
- A split pin and a small bead
- Clear sticky back plastic (or laminate)
- Spinner face and arrow (next page)

Instructions

- Cover the face and arrow of the spinner in clear sticky back plastic or laminate.
- Make a hole in the center of the arrow.
- Attach the arrow to the face using a split pin, placing a bead between the arrow and the spinner face.
- Make sure it rotates freely.
