

# Number practise 1- 20 [using 20 sided dice]

Which snail will be the first to eat all ten leaves??  
Shake the dice and write the snails number on the leaf. The first row of leaves full is the winner!!

																				
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	
																				
																				
																				
																				
																				
																				
																				
																				
																				
																				

Number ..... snail is the winner.

Number ..... snail is last
